

## **GRHS HSA FUNDRAISER**

# **SAT Power Workshop!**

***Saturday, April 21, 2018 9:00 AM – 12:00 PM***

If you are taking the SAT in May or June, you need to understand the strategies and tactics that will help you avoid the "traps" the test presents and achieve a higher score. We will walk you through proven strategies for each section of the SAT and show you how to implement these strategies on test day.

Location: Glen Rock High School

Who should take this workshop:

Students who would benefit from strategy, tips and tricks and need a confidence boost.

Whether a student has taken a different course, has been studying on their own, or has been unsuccessful in their prep program, this workshop will help them take strategy, confidence and momentum into the test.

During this 3-hour workshop, you will:

- Take timed mini-tests for each section (critical reading, writing, math) review question types and strategy;
- Learn how the order in which you answer questions has a dramatic impact on your score, and which order you should follow;
- Learn how the test takers have designed the test to trip you up and how to avoid those traps;
- Learn the most important time management strategies for each section of the test.

**Register at <https://sat-power.eventbrite.com> or call us at 201-397-5325**

**\*A portion of the proceeds benefits the GRHS HSA!**
